CLUB LEADERS COURSE

A group of farm women, leaders of Girls' Garden Clubs, met at the Olds School of Agriculture last week for a short course in club leadership. There are 40 Girls' Garden Clubs now operating in the province, but because of bad weather and road conditions only 19 leaders were able to attend.

Instructions were given in club leadership and gardening by members of the Department of Agriculture, University of Alberta and the Alberta Wheat Pool.

Girls' Garden Clubs have been formed throughout the province. Interest and train young people in gardening and to develop leadership in farm youth. The clubs are under the supervision of the Provincial Department of Agriculture and are sponsored by the Alberta Wheat Pool.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF THOMAS ALEXANDER HUNTER, late of Didsbury, in the Province of Alberta, Farmer, Deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named Thomas Alexander Hunter, who died on the 25th day of April, A. D. 1927, are required to file with W. K. Jull, K.C., Barrister and Solicitor, 612 Grain Exchange Building, Calgary, Alberta, by the 3rd day of July, A. D. 1948, a full statement duly verified of their claims and of any securities held by them, and after that date the Administrator will distribute the assets of the Deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

DATED this 4th day of May, A.D. 1948.

W. K. JULL, K.C.
Solicitor for the Administrator

New and Second Hand Store, Didsbury. Hughie Roberts, prop. Phone 107 evenings.

Large Audience Enjoys Play

An hilarious evening's fun with the crazy Smuthe family who caused audiences with their antics in the popular play, "The Homestead is Over", was enjoyed by two near capacity audiences when the Waikaranga of the Redemer Lutheran Church presented the play in the basement of the Lutheran Church on Tuesday, April 29 and Friday, May 7th.

The homestead is over for Lucy Smuthe and her new husband, Jack, as they return to the Smuthe home, much against the wishes of Fred, the crabbed head of the family, who has contracted every disease known to man and science. Jack needs money for a farm and his chances of getting it from Fred are nil.

However, Lucy's zealous friend mother comes to the rescue with the suggestion that Jack's friend, Clarence steal and pawn the family jewels. The plot gets underway, but is complicated by the fact that the Smuthe house guests are not the expected publishers, but two shady characters cut for the jewels.

Barber Hanson, a meddling neighbor, and Rose Day, a cousin of Fred Smuthe, merely add to the confusion. The curtain falls as Clarence asks Fred for two dollars to buy a marriage license for himself and Rose.

The characters were played by members of the Waikaranga League. Fred Smuthe by Harold Gay; Fannie Smuthe by Mrs. Fred Reese; Lucy by Marian Kosechuk; Jack by Walter Artman; Barber Hanson by Erna Reinhardt; Rose Day by Alving Jans; Clarence Wedger by Erna Reinhardt; and Fred Smuthe by Bill by Oscar Reinhardt.

Wheat Situation

The greatest concern at the present time is the wheat situation in the prairie provinces of Western Canada. Up to the 10th of May there has been no spring weather. The heavy snows of February and March caused serious flooding conditions and the wheat was delayed by a succession of April snow storms. The land is waterlogged and the seeding will be delayed. This spring has been the worst since 1910 is the opinion of some writers.

Of course a fine spell of weather during the next week would rectify conditions. Farmers would be able to go on the land like busy beavers with many of them arranging for 24-hour shifts.

A four frost free period in the fall would enable the crop to mature in good shape. All these are probabilities. No one can read the future. This fact is true—a good grain crop in Western Canada is badly needed, not only for the welfare of the Dominion, but for the sake of the people of the world.

The important winter wheat crop in the United States has suffered very little damage, and the production estimate of 861 million bushels based on the conditions as existed at April 1st is 22 million bushels higher than the estimates as of last December.

The United States is hoping for another billion bushel crop, and every bushel of it will be needed to supply the 185 million bushels to the wheat importing nations and in addition to that amount to provide another 140 million bushels for the occupied zones of Germany and Austria.

Europe's crop prospects continue favorable and authorities state that the total grain production on that continent this year will surpass last year's output by a wide margin and may approach the pre-war average. If such turns out to be the case, it will be a fortunate thing for Europe and the world.

Spring Poems

NO SPRING
Now that we know that we'll get no Spring
Because mid summer day is coming
Thoughts may run on anything
While we listen to the water running.
Daylight saving may be dropped.
We'll all get up just when we please,
Just be glad the argument flopped.
Who'd want to lengthen days like those?

Feed shortage, and the state of roads,
Weather forecasting — what a dud.
Each doing now there's one outlook.
We're not getting used to mud.
When carcases fly we never know
If morning may bring snow, instead
But the wisest of us soon will go
In rubber boots to bed!

There's even seed in days like these
Though finding them will need a pause,
But if there's no seed, there's no need
To waste out of the "Net Worth Clause".
Finally these days will pass,
And even now there's one good thing
For even a rhymester quite at last,
And writes no more of "Glorious Spring".
W. H.

30% BELOW
He walked along the snowy road,
His manner showed determination
His heavy pack was quite a load.
He had a distant destination.
His face was furrowed by winter frost.
His back was to the "West Country".

For him it had all the glamour lost.
He knew quite well where he should be.
No lingering doubt begoggled his mind.
You saw his purpose firmly set.
He meant to leave it all behind.
Further, with each stubborn step,
He'll return, for sure, in time.
Eager for some more of it.
But, the weather handed out a crime.
And we don't blame him a bit!
W. H.

DESTINY
Country boy in muddy lane —
A boy with Destiny!
Dawdling along to the red school again.
When the land was young and free,
At the back-concession's farthest end
His father toiled all day
With small reward, but his boy's trend
Was to follow his father's way.

The little red school house was out-
The thin-soled farm soon dulled his zest.
Seeking a rich land for his own.
He heard the call of the farthest west.
His homestead lay on the wide-rung plain
And he plowed with fine good will.
Chores he scorned, but he grew fine grain.
His destiny called him still!

For dry years came, and drudgery.
And debt and losses were his doom.
The bright lights flame for such as he
And he trudged his way to town.
So the boy who trudged the muddy lane
Now advises farmers what to do.
His life-work is at last made plain
His Destiny — with good pay too!
W. H.

HIG PAYMENT
Western wheat farmers will soon be mailed around \$41,000,000 to cover the 25c adjustment payment on the 1947 wheat crop, delivered from Aug. 1, 47 to March 31, 48 said Canadian Wheat Board reports last week.

The payment applies to the 207,000,000 lb. delivered at the old initial price of \$1.35 basis in store at the lake head or Vancouver.
Producers delivered wheat to the board after March 31 were paid at the new initial price of \$1.35.
Adjustment payments on the 1945 crop has been almost completed, the board said.

Total snowfall for the winter up until last Friday was 67.9 inches. This total was partly made up of 16.5 inches that fell in November and 15.5 inches that fell in April.
The total of rain was 2.24 inches reported at the O. S. A. for May up until the week-end and this is compared to the 2.24 inches that is considered normal for May and the 1.82 inches of rain that was reported last year. Oids Gazette.

Roads which had become mere bogs were beginning to dry up but as George Hess said, it was still a matter of time to get into Oids. We might as well do our shopping there. The new town grader under the command of Neil Acheson with Ray Schmitt as the second man made its maiden trip to the edge of town on Tuesday. They were clearing a path for the hauling of supplies for the waterworks. If the weather continues the grader will be put to work on the town streets in an effort to get them into some kind of shape.

The feeding of livestock was again made precarious. However, on Monday, skies were noticeably clearer and drying winds have been blowing since.

Over Two Inches Rain Last Friday
Adding to the already disastrous moisture situation that has developed this spring was the two inches of rain that fell from six o'clock on Friday evening to late on Saturday last week.

The most noticeable result of this added moisture was the flooding of many of the basements in the town. Some of these for the first time. In the country saturated fields were unable to absorb any more moisture and as a result slough after slough was forming in many parts. The rain changed to snow late on Saturday and by Sunday morning the entire district was enveloped in a blanket of white. There was approximately a half inch of snow in the Oids area but in the Carstairs and Crossfield districts about four inches of snow covered the ground.

THANKS . . .
Having disposed of my business, I wish to take this opportunity of thanking the people of Didsbury and District for their loyal patronage and trust that they will extend the same good will to my successors, Messrs. Foat and Fox.

Musical Festival Held at O.S.A.

The Musical Festival of the Oids rural group was held in the O.S.A. on Friday, May 7th. Schools taking part were Berrysdale, Bennett, Hainsdale, Hartman, Lone Pine, Samis, Waterside and Westerdale.

Despite the fact that the roads in many places were impassable a total of 145 entries was recorded. The work done was of a very high order and great credit is due to the teachers who trained the pupils and to the parents who brought them into Oids for the event.

The Festival was organized by Mrs. M. E. Campbell, teacher of the Bennett School, and was under the general supervision of Mr. X. P. Crispo, School Inspector for the Oids Division.

The adjudicators were Mrs. Boffey of Oids and Mrs. Francis of Carstairs.

It's a private matter

Your bank is there to serve you in a personal, private way.

When you make a deposit your passbook is closed to anyone but you and your bank. When you arrange a loan, that is strictly between you and your bank.

When you discuss private financial matters with your bank manager, you know they will stay private.

Such privacy is the very essence of Canadian banking. It permits you to deal with your bank and to use its many services on a basis of complete confidence and trust.

SPONSORED BY YOUR BANK

Don't Mention It!

Don't mention it to farmers. But there's music in the rain. Music in the mountain streams. Hurrying to the plains. Tapping-dancing on the shingles. Thumping on the window-pane. Farmers think of seedling. But there's music in the rain.

Soft music from the dripping eaves. And down the last year furrows. Pattering on sodden leaves. Gurgling into gopher burrows. There's music in the water courses. In land where they'd seed grain. But just don't mention this to farmers. It only gives them pain.

PAINTING?

● House need painting this spring? Now's a good time to check up. Paint costs less than repairs.

And remember—

Good paint is the cheapest paint. Good paint covers better, looks better, lasts longer. And costs no more to apply—usually less.

It Pays To Use C-I-L Paints

C-I-L PAINTS have long proved that they can TAKE IT. You can depend upon them for the enduring beauty, the sturdy resistance to wear and weather, which mean true paint economy.

Before you paint, whether a chair, a room or a house—

WESTERDALE

Rain and snow again disheartened farmers last week-end. After two days of sunshine rain began to fall early Friday evening and continued throughout the night turning into snow early on Saturday morning and this continued through most of Sunday.

Fifteen children from Westerdale took part in the musical festival held at the O. S. A. on Friday last. Only twelve persons attended the baseball meeting held at the Westerdale Hall on April 28th. However, they agreed to enter a team in the Western Baseball league again this year. Ted Bolton and Frank Jackson were appointed as the managers. Ball practice was to commence on Sunday but the weather conditions were unfavorable.

The over abundant supply of moisture has caused the water to seep into the basements of many of the homes in the district.

Cattle herds in Mexico have become so infested with foot and mouth disease that authorities believe that it will take many years to eradicate the disease. Great precautions are being taken to prevent its spread across the border into the United States.

SEEDTIME and HARVEST

By DR. F. J. GREANEY.

Director, Extension Service, Winnipeg, Manitoba.

Death To Grasshoppers

In 1917, hordes of grasshoppers invaded the wheatlands of Saskatchewan. They caused serious crop losses and left millions of eggs on roadside, ditch banks, field margins and in stubble fields. Grasshopper forecasts for 1948, prepared by Entomologists of the Science Service Laboratories at Lethbridge and Saskatoon, indicate that the most serious plague of grasshoppers since 1910 can be expected in many districts of Western Canada, particularly in Saskatchewan, this year.

Infested Areas. The area in Saskatchewan known to be infested with sufficient numbers of grasshopper eggs to constitute a serious threat to crops this spring, extends from North Battleford southward to the United States boundary, and from the Alberta border eastward to a line through Wynand, Regina, Estevan and Weyburn. Fortunately, in Manitoba and Alberta, heavy grasshopper infestations are confined to a few relatively small areas in the southern portions of these provinces. A word of warning. Farmers in the grasshopper infested areas of Western Canada who fail to prepare for, and to carry out, an effective poisoning campaign this spring are likely to suffer unusually heavy crop losses in 1948.

Grasshopper Control. No attempt can be made here to give detailed information on the control of grasshoppers. As most western farmers know, successful grasshopper control depends largely on an early and effective spring baiting campaign. If grasshoppers threaten your crop this spring seek the co-operation and assistance of your municipal officials and Agricultural Representatives. Your Local Line Elevator agent will not only be ready to help you to wage war on grasshoppers. Support your community control campaign and make sure you keep the grasshoppers on your own farm strictly under control. Full information on effective grasshopper control measures, availability of poison bait, etc., can be obtained from your Provincial Department of Agriculture, or nearest Dominion Entomological Laboratory (Lethbridge, Alta.; Saskatoon, Sask. or Lethbridge, Man.).

WEEDS GO... CROPS Grow!

Liquid DeWeed 2-4-D

The Newest Aid For the Farmer

Liquid De Weed (Isopropyl Ester type of 2,4-D) acts fast to destroy weeds in grain crops — it is not washed off by rain — it is not soiled easily. It is most economical and effective over the widest range of conditions. Increase your crop by using Liquid De Weed.

Around the Country

WESTCOTT NEWS NOTES

The news of the fire in Didsbury last week-end came as a surprise to many of us out in the country. Most of our communications have been hampered by our freak spring weather. We are very sorry to hear about the loss but we are glad that no one lost their lives. We were pleased to hear and read that the Pioneer Publishing office will be again built up as we think our paper is just about tops and we would miss it very much should it not be published.

What a Spring! Snow storms and rain so that our roads are in the most deplorable state ever, and spring work on the land is definitely out for another while. Mr. and Mrs. H. Walsheim and family were visitors at the Goeben home on Sunday afternoon last.

Mr. and Mrs. D. H. Holmquist was a dinner guest at the Topping home on Sunday last.

We are told that the Musical Festival which was to have been held at the Ruddy Hall this Friday, May 14th has been postponed indefinitely because of the road conditions.

Our local storekeeper, Mr. Polkman has been keeping a good supply of groceries on hand even if it has meant many trips to town with team and wagon. He also has seen that the mail got out from the post office which is really very much appreciated. A real pioneer spirit prevails here, the farmers making the necessary trips to town with old Dobbin and all doing their utmost to help their neighbors out. The wife of our storekeeper is doing her bit too. When the bread supply can't be brought in she bakes it and so we're all being well cared for.

Among those who ventured out to spend Mother's Day week-end at their homes were Margaret and Donald Robertson; Deloyce Goethen and also Lethy Benson from the Red Deer Composite High School. On Sunday all were having ways and means to get back. We hope that all made it for Monday morning.

Mr. Fred Rodway returned home to Red Deer last week after visiting with her parents, Mr. and Mrs. H. Daufort. We hear that she had to make part of the trip up Furdon.

BURNSIDE NEWS

Mr. and Mrs. Arbor and children were Calgary visitors on Thursday.

The fields are waterlogged following the snow and rain on Saturday and it will be some time yet before farmers are on the land.

Mr. and Mrs. Charlie Mardon and Charles Jr. were in Calgary on Thursday. Mrs. Mardon made arrangements to go into the Holy Cross hospital on Sunday and was to have a major operation on Wednesday. Her friends in the Burnside district wish her the best of luck.

Mr. and Mrs. Dave Clarke and daughter were Calgary visitors last Thursday.

The roads are still in terrible shape and water has been flowing over them in several places.

MOUNTAIN VIEW NOTES

Mrs. Alice Bruce is training in the Didsbury telephone office prior to going on as a full time operator.

Mr. and Mrs. B. Elliott were Calgary visitors on Wednesday.

Mr. and Mrs. A. Gebers were Monday evening visitors at the H. Shultz home.

Mr. and Mrs. O. Brown were Thursday night supper guests of Mr. and Mrs. W. Shultz.

Geraldine Fulkert had a birthday party last Friday night to celebrate her 14th birthday. Some of the school children were invited up to the special supper.

Mr. and Mrs. W. Shultz and Lyle were Calgary visitors on Friday.

Mr. and Mrs. G. Tighe were Calgary visitors on Thursday.

Mr. and Mrs. R. Hamper were Sunday guests at the home of Mr. and Mrs. G. Tighe.

The "flu" seems to be making the rounds with many in the district at the sick list.

Pete Schumaker has some wheat sown already. Guess he must be the first one around here.

The Mountain View Women's Institute May meeting will be held at the home of Mrs. Joe Fulkert on Thursday, May 20th. Roll call will be answered with "How Can I Improve This Institute."

SEND IN YOUR ORDERS FOR PRINTING

A good job of printing requires the personal touch. Despite our loss we are still able to handle your requirements in printing. Contact the publishers or drop your orders in the mail. During the day if an emergency arises the publisher of the Pioneer can usually be contacted at 28 in Olds.

A FARM STORAGE TANK DOESN'T "COST" IT PAYS!

A farm storage tank pays 5 ways. First and foremost, it permits you to buy and store enough fuel at one time to be sure of having a supply on hand when you need it. No costly delays when tractors stand idle, waiting for fuel to be delivered.

Second, it helps to keep fuel clean and avoid plugging of fuel lines and carburetors with grit, dust or water. The tank can be mounted with enough slant to cause any impurities to settle away from the outlet.

Third, it saves time in re-fueling tractors and trucks, if the tank is mounted overhead. Gravity flow is quicker than pumping or pouring. And fourth, it prevents the spillage of the pump-and-pail method... or the wastage of the "last gallon" that is often left in the bottom of each barrel.

Last but not least, a farm storage tank pays in added safety, because it can be located well away from house, barn or sheds.

Tanks come in three sizes. The price is reasonable. See your Imperial Oil Agent.
